

Management Strategic Plan (MSP) Rare Plant Species Prioritized for 2020
"Inspect & Manage" Monitoring

Scientific Name	Common Name	Federal & State Listing Status
<i>Acanthomintha ilicifolia</i>	San Diego thornmint	FT/CE
<i>Acmispon prostratus</i>	Nuttall's acmispon	
<i>Ambrosia pumila</i>	San Diego ambrosia	FE
<i>Chorizanthe orcuttiana</i>	Orcutt's spineflower	FE/CE
<i>Chloropyron maritimum ssp maritimum</i>	Salt marsh bird's-beak	FE/CE
<i>Clinopodium chandleri</i>	San Miguel savory	
<i>Deinandra conjugens</i>	Otay tarplant	FT/CE
<i>Dudleya brevifolia</i>	Short-leaved dudleya	/CE
<i>Monardella vimnea</i>	Willowy monardella	FE/CE

The following species were scheduled for regional monitoring in 2020 but there is insufficient funding for SANDAG's contractor to cover gap occurrences. Land managers are still encouraged to monitor these species if they have sufficient resources.

<i>Brodiaea orcuttii</i>	Orcutt's brodiaea	
<i>Dudleya blochmaniae</i>	Blochman's dudleya	
<i>Dudleya variegata</i>	Variegated dudleya	
<i>Hazardia orcuttii</i>	Orcutt's hazardia	/CT
