Quarterly Progress Report: July 1, 2023 through September 30, 2023

Otay Ranch Preserve Enhancement Project (SANDAG Contract Number S1125469)

Work Performed this Period:

1. Task 1- Planting

Starting on September 6, the project biologist began coordinating the purchase of plants and seed from Native West Nursery, project materials, and crew scheduling. Field crew labor did not occur during this reporting period but is scheduled to begin in early November. Certified payroll will begin at that time. Percent complete: 4%.

2. Task 2-Seeding

Percent complete: 0%.

3. Task 3-Watering

Percent complete: 0%.

4. Task 4-Erosion Control

Percent complete: 0%.

5. Task 5-Bollards and Sign

Percent complete: 0%.

6. Task 6-Photo Monitoring

Percent complete: 0%.

7. Task 7- Reporting

Percent complete: 0%.

Work Anticipated Next Period

The following activities are anticipated to occur during the next quarter (October 1 through December 31):

- Install native coastal sage scrub shrubs.
- Apply host and nectar plant seed to the site.
- Water container plants and seed to encourage plant establishment and to supplement natural rain events.
- Fill in erosion rills and install biodegradable wattles.
- Install bollard embedment sleeves.
- Establish permanent photo points within the project site.

Issues to Note

No issues were encountered during the reporting period.

Photographs & Figures
