

Title: Director of Restoration
Status: Salaried-Exempt
Location: Chico, Sacramento, Colusa, or Modesto
Reports to: Chief Operations Officer

Do you love the Central Valley? Do you believe in healthy rivers that support a thriving environment and communities? Do you get excited about working with diverse teams – like scientists, farmers, and entrepreneurs who turn big ideas into action? If you answered yes to these questions, River Partners wants to hear from you. Notwithstanding our noteworthy accomplishments and awards, the single best thing about River Partners is our people. Our staff is committed, creative, collaborative, and diverse. Together, we produce tangible, lasting results for a thriving California.

Organizational Summary: River Partners is a private, nonprofit corporation headquartered in Chico, California. River Partners’ mission is to create wildlife habitat for the benefit of people and the environment. We are the largest habitat restoration contractor in the western United States. Our talented and hardworking field restoration teams deliver large-scale ecological restoration attaining the highest standards of ecological performance within the complicated world of public works contracting to bring life back to rivers.

Position: The Director of Restoration leads a team of more than 20 Field Foremen and Field Technicians who are responsible for implementing river restoration projects across California. River Partners’ unique contribution to the field of restoration ecology is using farming techniques to reforest rivers and floodplains using diverse native trees, shrubs and grasses; installing and managing large irrigation systems where needed; and innovating new efficient ways to manage invasive weeds. Our Field Restoration team are specialists in both cultivating native forests and managing vendors and contractors. Additionally, working in sensitive aquatic and riparian environments requires careful monitoring and regulatory oversight of field restoration activities, so this position works closely with River Partners’ Director of Restoration Science to ensure project scientists and Field Restoration Team members take extra care to meet and exceed permit conditions and manage multi-million-dollar project budgets efficiently. Cost estimation and budget/workplan management are essential for this position.

Supervisory Responsibilities: This position has supervisory responsibilities.

Essential Functions and Responsibilities:

(70%) Supervise the Field Restoration Team to deliver large-scale ecological restoration projects on time and within the budget with the highest standard of project performance

Directly supervise 5-6 Field Managers across California

- manage and approve workplans, timesheets and expense reports
- complete and document regular performance evaluation, training and coaching
- work with Safety Officer to ensure compliance with workplace regulations
- support certification for various team members in appropriate technical specialties
- use good judgment to elevate issues for support or review by senior leadership at RP
- maintain working relationships with clients and vendors

Schedule staff and other resources (equipment, supplies, labor crews) to support Field Managers in meeting contractual obligations and deadlines for projects while controlling organizational expenditure and risk

Travel to project sites regularly to review job performance and interact with vendors, direct reports and the larger Field Restoration Team (approximately 20 employees)

Work with the CFOO, Senior Director of Restoration and Director of Restoration Science to forecast project resource needs and procure nursery plants, native seed, vendor contracts, labor, equipment, and staff to ensure timely project delivery

(20%) New Projects: Responsible for project cost-estimation, preparing and receiving project bids, resource and task-based budgeting, team-wide work planning to support the Conservation Team in securing new restoration projects (grants and contracts)

Support the grants development team to:

Scope new projects including staff time, equipment and supplies needs

Develop realistic project workplans and schedules for proposals

Solicit bids from vendors for proposed work consistent with State Contracting Manual

Generate proposal budgets for field restoration activities including:

- site preparation and earthwork,
- irrigation system design and installation,
- planting, seeding, and
- maintenance

Support Contracting Director to bid on public works projects:

Review plans and specs, translate into workplans and budgets

Maintain working relationships with vendors and clients to support successful bids

Prepare bid proposals in collaboration with CFOO and senior leadership at RP

(10%) Communications – internal and external: Responsible for sharing project and team issues with appropriate team leads and senior leadership at RP as well as serving as a restoration project ambassador for site tours and project visits with vendors, partners and clients

Know and coach Field Managers to know the specific details of project implementation:

Timelines and tasks

Staff, equipment, labor and vendors budgeted and planned

Special regulatory permit conditions and sensitivities (for example cultural resources)

Restoration science and wildlife/plant identification

Strategic partners and project outcomes

Inspect project sites and collaborate with Safety Officer, CFOO, Director of Restoration Science, and Director of Communications to highlight successes and outcomes, correct errors and respond to challenges

Cultivate collaboration amongst Field Restoration and Restoration Science teams to ensure project compliance with permitting conditions, restoration plans, and best available science

Knowledge Skills and Abilities:

- Must enjoy working with diverse people and organizations to get things done
- Capable of working independently and leading teams
- High level of personal discipline and ability to manage multiple initiatives simultaneously
- Knowledge of agriculture and public works construction practices
- Experience managing budgets and general understanding of contracting
- Excellent verbal, analytical, organizational, and written skills
- Demonstrate judgment in identifying and handling confidential information
- Exhibit cooperative behavior with colleagues, supervisors, and managers at all times
- Integrity and ethics beyond reproach
- Commitment and enthusiasm to carry out River Partners mission

Qualifications:

- B.S. in agriculture, agribusiness, contract management or related science
- Minimum of ten years of experience in ecological restoration or related field
- Exceptional supervisory skills and interpersonal communication skills
- Ability and enthusiasm to spend over two weeks per month travelling to various project sites across California including the Imperial Valley, San Diego, Bakersfield, the San Joaquin Valley, Redding and Red Bluff
- Ability to represent River Partners orally and in writing to a broad spectrum of agency, community and governmental organizations
- Minimum five years of experience in cost-estimation, budgeting, project management and contracting
- Competency in contract negotiation and administration
- Skill in exercising judgment and discretion in developing, applying, interpreting and coordinating departmental policies and procedures
- Skilled team leader
- Certification in pesticide application (Pest Control Advisor preferred, Qualified Applicator License required)
- C-27 Landscaping Contractor's License and/or Class A Contractor's License (preferred)
- Possess the ability to communicate in basic Spanish (preferred)
- Experience working with Microsoft Office Suite software and DelTek Vantage Point
- Veterans are encouraged to apply

Salary:

Commensurate with experience. River Partners offers competitive benefits package including 401K matching and paid time off. Anticipated salary range is \$90,000 to \$100,000.

Benefits:

Medical, Dental and Life insurance paid 100% for employee; vision insurance; Flexible Spending Account (FSA)/Health Savings Account (HSA), 401K with employer match (plan is fully vested); 10 paid holidays; up to 12 days of paid sick-leave per year; fitness membership.
