

## MSP Rare Plant Monitoring 2015

### Volunteer interest

Name:

Email:

Phone:

*Botanical expertise level in San Diego County:*

☐ none whatsoever      ☐ novice botanist      ☐ familiar with common species

Please highlight the following MSP rare plant species you have experience with:

Aphanisma, Blochmann's dudleya, Chaparral nolina, Coast wallflower, Dehesa nolina, Encinitas baccharis, Gander's ragwort, Heart-leaved pitcher sage, Jennifer's monardella, Mexican flannelbush, Nuttall's acmispon, Orcutt's spineflower, Orcutt's birds-beak, Orcutt's brodiaea, Orcutt's hazardia, Salt marsh bird's-beak, San Diego ambrosia, San Diego goldenstar, San Diego thornmint, San Miguel savory, Santa Rosa brodiaea, Shaw's agave, Short-leaved dudleya, Sticky dudleya, Thread-leaved brodiaea, Variegated dudleya, Willowy monardella

*Are there any particular species you would like to survey?*

*Area of County you are willing to volunteer:*

☐ coast      ☐ north      ☐ central      ☐ south      ☐ any

*Do you already have affiliations with, or ties to, land owners or specific lands you would like to survey?*

*What kind of time commitment do you have in mind? (e.g., number of hours, number of days)*

*What periods or dates are you available? (e.g., during the week versus only weekends, which months)*

*Anything else we should know to help match you up with plant occurrences?*
