

# Transformational Habitat Restoration and Coastal Resilience Grants

**Up to \$100 million is available for projects that will restore coastal habitat and strengthen community resilience under the Bipartisan Infrastructure Law.**

## Overview

Projects selected through this funding opportunity will have a transformative impact for coastal ecosystems across the country. They will help sustain our nation's fisheries, make significant strides in the recovery of threatened and endangered species, and help protect coastal communities and ecosystems from the impacts of climate change.

## Funding and Eligible Applicants

Up to \$100 million is available. 15 percent of this funding is specifically available to U.S. federally recognized tribes, Alaska Native Corporations, and organizations that represent tribes through formal legal agreements, through direct awards or subawards.

The remaining funding is available to all eligible applicants, including academic organizations, non-profit and for-profit organizations, U.S. territories, and state, local, and tribal governments.

NOAA will accept proposals between \$750,000 and \$10 million over the award period, with typical funding anticipated to range from \$4 million to \$6 million.

## Application Deadline

April 16, 2025 at 11:59 p.m. Eastern Time.

## Is a match required?

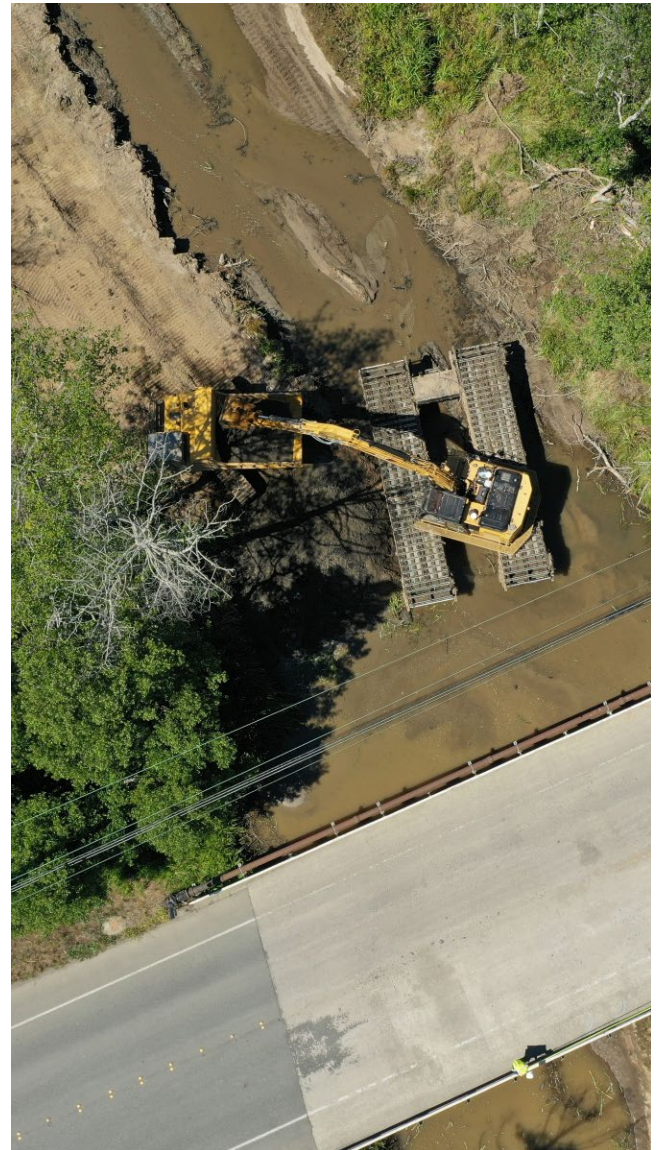

No.

## *Habitat Restoration under the Bipartisan Infrastructure Law and Inflation Reduction Act*

For decades, NOAA's Office of Habitat Conservation has supported habitat restoration efforts across the country through competitive funding opportunities and expert technical assistance. With the significant funding provided through the Bipartisan Infrastructure Law and Inflation Reduction Act, we are continuing our work to support fisheries and communities through habitat restoration and coastal resilience efforts.

# Restoring Fish Passage through Barrier Removal Grants

Up to \$75 million is available for fish passage projects under the Bipartisan Infrastructure Law.

### Overview

Through this funding, NOAA will support fish passage projects that remove dams and other in-stream barriers, reopen migratory pathways, and restore access to healthy habitat for fish.

Selected projects will support sustainable fisheries and contribute to the recovery of endangered migratory fish. They may also provide community and economic benefits, such as jobs and climate resilience.

### Funding

Up to \$75 million is available. NOAA will accept proposals between \$750,000 and \$8 million for the entire award, with typical funding anticipated to range from \$3 million to \$5 million.

### Application Deadline

February 10, 2025 at 11:59 p.m. Eastern Time.

### Eligible Applicants

Non-federal partners, such as academic organizations, non-profit and for-profit organizations, U.S. territories, and state, local, and tribal governments.

### Is a match required?

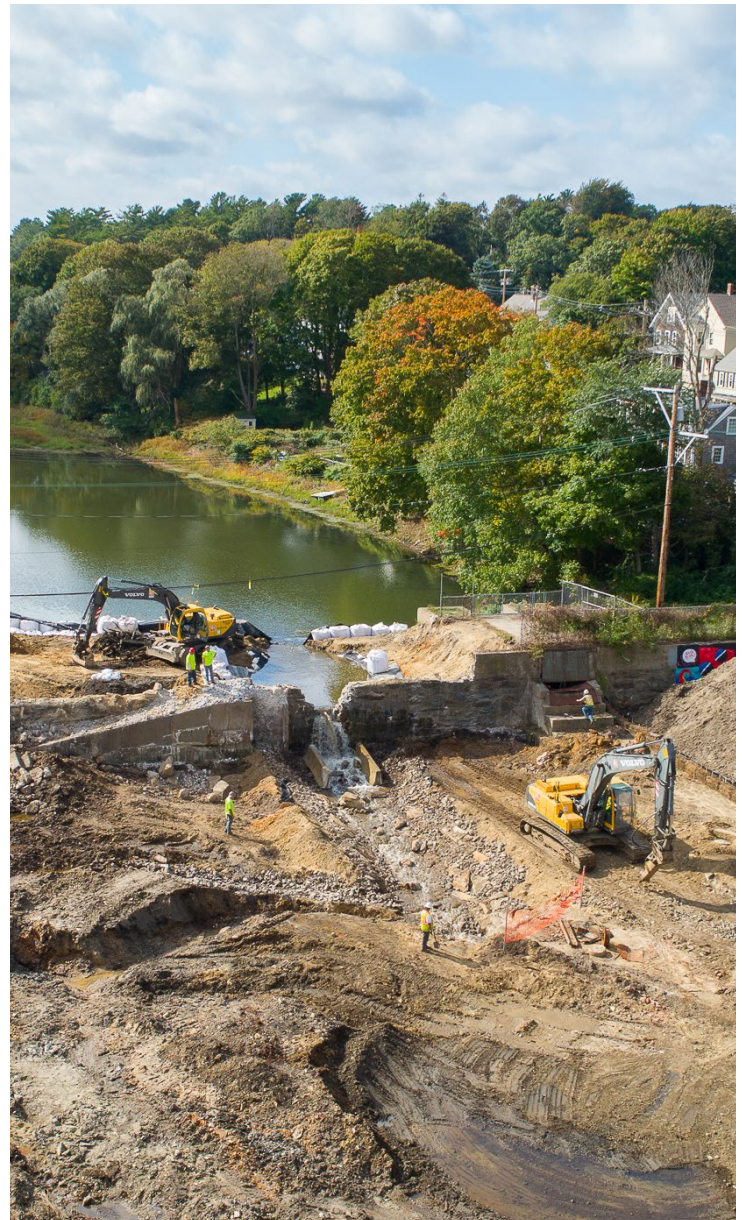

No.

# Restoring Tribal Priority Fish Passage through Barrier Removal Grants

**Up to \$20 million is available for fish passage and tribal capacity building under the Bipartisan Infrastructure Law.**

### Overview

Through this funding, NOAA will support U.S. federally recognized tribes, Alaska Native Corporations, and tribal organizations in building tribal organizational capacity and implementing projects that reopen migratory pathways and restore access to healthy habitat for tribally-important species.

### Funding

Up to \$20 million is available. NOAA will accept proposals between \$300,000 and \$6 million for the entire award, with typical funding anticipated to range from \$500,000 to \$4 million.

### Application Deadline

February 27, 2025 at 11:59 PM Eastern Time.

### Eligible Applicants

U.S. federally recognized tribes, Alaska Native Corporations, and tribal organizations that represent Indian tribes through formal legal agreements.
