

California Department of Fish and Wildlife

Job Opportunities

South Coast Region 5

Date: 07/12/2019

The Mission of the Department of Fish and Wildlife is to manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

www.wildlife.ca.gov

The State of California is an equal opportunity employer to all, regardless of age, ancestry, color, disability (mental and physical), exercising the right to family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding and related medical conditions), and sexual orientation.

It is an objective of the State of California to achieve a drug-free workplace. Any applicant for state employment will be expected to behave in accordance with this objective because the use of illegal drugs is inconsistent with the law of the State, the rules governing Civil Service, and the special trust placed in public servants.

Job Description/Summary:

Under the general direction of the Environmental Program Manager I (Supervisory) within the Region's Habitat Conservation Program, this position functions as the Region's Mitigation/Conservation Banking Program (Banking Program) coordinator. Performance of specified activities will require an in-depth understanding of Department policies, applicable environmental laws, and ecological principles, and strong coordination with the Region's Lands, Natural Community Conservation Planning (NCCP), and California Environmental Quality Act/California Endangered Species Act (CEQA/CESA) programs. Work in this position is characterized by highly independent development and direction of analytical procedures for impacts assessment and mitigation development. Public contacts made in the course of this work are sensitive and involve a wide variety of constituents and special interest groups. May also coordinate banks in adjoining region. A high degree of personal initiative is expected. Specific duties are listed below and are described in more detail in the following sections: Participation in the Department's Bank Working Group; Participation as a Department representative on the Interagency Review Team and on Conservation Bank Review Team; Tracking fees associated with the Banking Program; Tracking bank status and compliance; and review of documents listed in Fish and Game Code (FGC) 1798 (bank prospectus, bank enabling instruments, conservation easements) and associated habitat restoration and management documents.
