Section 1: Introduction and Program Summary

Background

The Department of Conservation ("Department") is pleased to announce funding opportunities for capacity building and project development grants. Funding for these grants is available from the California Drought, Water, Parks, Climate, Coastal Protection and Outdoor Access for All Act of 2018 (Proposition 68), which allocated \$20 million to the Department to protect, restore, or enhance working lands and riparian corridors through conservation easements or other conservation actions. This solicitation specifies the eligibility and evaluation criteria, application process, and grant award and administration processes for projects that build land trust and other agricultural non-profit capacity to initiate and conduct agricultural conservation activities under this program.

California has identified agricultural and working lands conservation as a critical component of its climate adaptation and greenhouse gas emission reduction and carbon sequestration goals^{1,2}. In recent years, the state has committed significant funds to agricultural land conservation, particularly through the Strategic Growth Council's California Climate Investments-funded Sustainable Agricultural Lands Conservation (SALC) Program, the California Farmland Conservancy Program (CFCP), and the Agricultural Land Mitigation Program (ALMP).

Listening Tour

During the spring and summer of 2018, the Department conducted interviews with 40 land trusts, local government entities, and other conservation partners to assess the state of California agricultural conservation and identify how Department programs can increase conservation partner capacity to conserve agricultural lands throughout California.

Preliminary findings indicate that, while increased funding for agricultural land conservation has expanded conservation opportunities in recent years, lack of capacity restricts efforts to conserve agricultural lands throughout the state. Capacity concerns take several forms: lack of organizational capacity to develop and complete transactions, inability to develop and sustain collaborations, insufficient funding to complete projects, and lack of knowledge among landowners and the public of agricultural conservation efforts and the importance of agricultural conservation.

At a time when the state is seeking to increase the pace and scale of agricultural land conservation as a key component of its greenhouse gas emission reduction and carbon sequestration efforts, these impediments to agricultural land conservation pose a threat to the state's ability to meet its own goals.

Working Lands and Riparian Corridors Program Guidelines

This solicitation is made pursuant to the Department's Working Lands and Riparian Corridors Program Guidelines (Guidelines) approved on May 29, 2019. The Guidelines establish general requirements for projects funded through the Working Lands and Riparian Corridors Program. All projects funded under this solicitation must adhere to the requirements set forth in the Guidelines.

The terms of this notice shall control if there is a conflict between the Guidelines and this notice.

Funding Availability

\$950,000 is available through this solicitation for projects that build land trust and other agricultural non-profit capacity to initiate and conduct agricultural conservation activities. Funds will be awarded to those projects that best meet the goals and objectives of the Working Lands and Riparian Corridors Program. Applicants are encouraged to keep their requests scalable, as the Department may make partial grant awards, at its sole discretion.

Objectives

Consistent with the Objectives set forth in the Guidelines, capacity grants must achieve the following objectives:

- Increase the pace and scale of agricultural land conservation throughout the state
- Support climate adaptation and resilience via agricultural lands conservation

Disadvantaged Community Benefits

A minimum of 15% of combined grant awards from this solicitation should be used to serve severely disadvantaged communities, as described in the Guidelines. Where feasible, applicants should identify strategies to address the needs of severely disadvantaged communities and/or socially disadvantaged farmers and ranchers and increase their participation in proposed agricultural land conservation efforts.

Proposals determined to serve severely disadvantaged communities or socially disadvantaged farmers and ranchers³ will receive more points.

Grant Term

The grant term will be approximately 2 years. With written justification, the duration of a grant may be extended at the discretion of the department.

³ As defined in AB 1348 (Aguilar-Curry, 2018): http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201720180AB1348

Contacts

For questions about this solicitation, please contact the Department's Working Lands and Riparian Corridors team by email to [CFCP@conservation.ca.gov].

Section 2: Eligible Applicants and Project Types

Eligible Applicants

Eligible applicants are land trusts and other nonprofit organizations with a demonstrated interest in the conservation of agricultural lands. Nonprofit organizations must hold a tax exemption as defined under Section 501(c)3 of the Internal Revenue Code.

Eligible Project Types

Applicants may apply for funding for multiple project types. Applicants requesting funding for multiple project types must submit their request as one application. The Department will accept joint applications from multiple applicants so long as the lead applicant and intended grantee meets the Eligible Applicant requirement. A successful joint application will include meaningful, actionable, internal and external collaboration and demonstrate a commitment (such as match funding or memorandum of understanding) to the joint application from each participating eligible organization.

The following project types are eligible for funding under this solicitation:

1. Project Development
2. Priority/Strategic Planning

Applicants are encouraged to engage stakeholders, including members of severely disadvantaged communities and socially disadvantaged farmers and ranchers, in their projects.

These funds cannot be used to develop projects designed to fulfill mitigation requirements imposed by law.

Project Development

The Department will provide grants to fund project development activities that should result in one or more specific, funding-ready agricultural land conservation projects that provide climate adaptation or resilience benefits to the state. This could include project development activities to support funding proposals for agricultural land conservation projects under the Department's agricultural land conservation programs, the Natural Resources Conservation Service's agricultural land conservation programs, and any other federal, state, or local agricultural land conservation programs.

Project development activities include:

- landowner outreach and engagement
- identification of funding opportunities
- grant writing and application preparation
- title work
- preparation of project materials.

The maximum award for project development grants is \$75,000.

Priority/Strategic Planning

The Department will provide grants to fund development of a conservation strategy or plan, or amendment to an existing strategy or plan, that integrates:

- agricultural land conservation, and
- climate adaption goals.

Conservation strategies or plans will result in a set of projects. Applicants may also use this funding to incorporate fire resilience and/or sustainable groundwater management into a conservation strategy or plan, so long as such incorporation is compatible with and in addition to incorporation of agricultural land conservation and climate adaptation goals.

The Department will consider joint applications from eligible organizations to create a regional or landscape scale joint conservation strategy or plan or amend an existing conservation strategy or plan.

The maximum award for priority/strategic planning grants is \$10,000. A grant awarded pursuant to a joint application may be up to \$10,000 per eligible organization.

Eligible Costs

Only eligible costs incurred during the grant agreement term will be reimbursed. All costs must be reasonable and supported by appropriate documentation. A reasonable cost, in its nature and amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. In determining reasonableness of a given cost, consideration must be given to:

- Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the entity or the proper and efficient performance of project.
- The restraints or requirements imposed by such factors as: sound business practices; arm's-length bargaining; federal, state, local, tribal, and other laws and regulations; and terms and conditions of this project.
- Market prices for comparable goods or services for the geographic area.
- Whether the individuals concerned acted with prudence in the circumstances considering their responsibilities to its employees, the public at large, and the state.
- Whether the cost significantly deviates from the acquiring entity's established practices and policies regarding the incurrence of costs.

The following are eligible costs:

Direct costs

Direct costs incurred in order to execute the proposal are eligible for reimbursement, including direct costs incurred by grantees to engage with landowners, stakeholders, local government, and partners in activities directly related to the proposed project. Staff costs may include benefits, taxes, and leave in addition to the staff person's hourly rate.

To the extent that such activities are directly related to completing the proposed project, applicants are encouraged to utilize funding to:

- Collaborate and participate in knowledge sharing with partners
- Perform outreach to and engage diverse populations, particularly members of severely disadvantaged communities, socially disadvantaged farmers and ranchers, and tribal communities, to increase awareness within those communities about specific programs and opportunities
- Develop or expand coordinated efforts to promote youth engagement and empowerment, including fostering new partnerships with diversity-serving and youth-serving organizations, urban areas, and programs

Applicants who intend to use funding to support outreach activities should identify possible staff liaisons to diverse populations within their application.

Indirect costs should not be included in the budgeted staff rate or salary. Indirect costs should be budgeted separately and must comply with the requirements outlined below.

Travel costs

In-state travel for grantee's staff as necessary to complete project work. Costs must meet the requirements outlined below and in the Grant Agreement:

- Accommodation-related travel costs: maximum reimbursement rates based on county as shown here: <http://www.calhr.ca.gov/employees/Pages/travel-lodging-reimbursement.aspx>, with no option for approval of an "excess lodging rate."
- Rental car costs or personal vehicle mileage for travel directly related to the grant will be reimbursed at the relevant rental car or Reimbursement Rate Per Mile for Personal Vehicle as shown here: <http://www.calhr.ca.gov/employees/Pages/travel-personal-vehicle.aspx>.
- Rental car, personal vehicle, ride share, train, or airfare costs will only be reimbursed for travel directly related to execution of the work plan, and then only if it is the typical method used to get from one location to the other. Grantees should choose the least expensive mode of transportation feasible given their travel needs.
- No other travel-related costs will be reimbursed through this grant program.

Education and training costs

Up to two percent (2%) of the grant award may be used to cover direct costs to attend trainings or meetings to improve the applicant's skill, efficiency, or expertise in agricultural land conservation in order to complete the proposed project. All education and training costs are subject to review and approval by the Department.

Indirect costs

Indirect costs may account for no more than ten percent (10%) of the total grant award and may include those costs incurred by the grantee to administer the grant, such as:

- Office space
- Supplies and equipment
- Legal or management oversight
- Prorated general liability, Workers' Compensation (may be included in payroll), and automotive insurance

Grantees may use this funding to compensate partners and stakeholders for work performed directly relating to the strategic planning process.

To the extent that such activities are directly related to completing the proposed project, applicants are encouraged to utilize funding to implement or expand the use of multilingual and culturally appropriate materials in communications and educational strategies related to the proposal.

Ineligible Costs

Common examples of ineligible costs are:

- Indirect costs in excess of ten percent (10%) of the award amount
- Education and training costs in excess of two percent (2%) of the award amount
- Costs that are not related to the funded project
- Costs that occur outside the Grant Agreement term
- Meals, incidentals, tips, per diems, or refreshments for meetings or travel
- Incentive/participation gifts
- Out of state travel.

Exhibit A, Scope of Work

1. Land Trust Capacity and Project Development Program Background

California has identified agricultural and working lands conservation as a critical component of its greenhouse gas emission reduction and carbon sequestration goals⁴, and a 2017 The Nature Conservancy study emphasizes the importance of agricultural land conservation in mitigating the impacts of climate change⁵. In recent years, the state has committed significant funds to agricultural land conservation, particularly through the Strategic Growth Council's California Climate Investments-funded Sustainable Agricultural Lands Conservation Program.

Funding for this Grant is available from the California Drought, Water, Parks, Climate, Coastal Protection and Outdoor Access for All Act of 2018 (Proposition 68), which allocated \$20 million to the Department to protect, restore, or enhance working lands and riparian corridors through conservation easements or other conservation actions.

2. The Project is Defined by the Application and Award Letter

The Department released the final Proposition 68 Guidelines Working Lands and Riparian Corridors Program ([Exhibit F](#)) (Guidelines) and Solicitation for Land Trust Capacity and Project Development Solicitation on May 29, 2019 ([Exhibit G](#)). In accordance with the Guidelines, Grantee applied and the Department awarded a grant to fund the project described in the application, subject to any conditions contained within the Award Letter ([Exhibit E](#)). This will be referred to as the "Project" throughout this Agreement.

3. Authorized Signers

The Department Director or designee is authorized to sign this Grant Agreement and grant-related documents on behalf of the Department.

Grantee's Authorized Signatory or designee is authorized to sign this Grant Agreement and grant-related documents as shown in the Authorized Signatory Form ([Attachment 1](#)).

Grantee must keep Authorized Signatory Forms up to date. Within seven (7) working days of any change to the authorized signatory or to the delegated authorized signatory, Grantee shall notify the Department in writing of the change. The written notice shall be sent as an electronic mail (email) attachment to be filed with the Grant Agreement.

4. Project Representatives

The project representatives are the contact people for the Department and Grantee. The project representatives during the term of this Grant Agreement are:

Exhibit C, General Terms and Conditions

1. Approval

This Grant Agreement is of no force or effect until signed by both parties. Grantee may not commence performance until such approval has been obtained.

2. Amendment

No change to this Grant Agreement shall be valid unless made in accordance with [Exhibit A, Section 3 or 4](#), or [Exhibit B, Section 7](#). No oral understanding or change not incorporated in this Grant Agreement is binding on any of the parties.

3. Assignment

This Grant Agreement is not assignable by Grantee, either in whole or in part, without the consent of the Department in the form of an amendment.

4. Records Retention

- A. Grantee shall establish an official file containing adequate documentation of all actions taken with respect to the Project, including copies of the Grant Agreement, changes, amendments, letters, email correspondence, financial records, and required reports for a minimum of four (4) years following the final payment of funds or until completion of any action and resolution of all issues which may arise as a result of an audit, whichever is later.
- B. Grantee shall adequately protect all records, physical and electronic, from loss, damage, or destruction during the four (4) year retention period.

5. Audit

- A. Grant funded projects are subject to audit by the State of California during the grant term and for up to four years following the termination of the grant agreement. Grantee agrees that the Department, Department of Finance, Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Grant Agreement. The audit may consist of examining and auditing pertinent books, documents, papers, and records including financial transactions and supporting documents, general accounting systems, internal controls, management practices, policies, and procedures pertaining to the performance of this Grant Agreement.
- B. At any time, the Department, Department of Finance, Bureau of State Audits, or their designated representative may request to review Grantee's records to ensure proper grant management. Grantee shall be given advance notice when the grant-funded Project is selected for an audit or review by the Department, Department of Finance, Bureau of State Audits, or their designated representative. Grantee agrees to allow the auditor(s) access to such records during normal business hours, excluding State of California holidays, and to allow interviews of any employees who might reasonably have information related to such records. Further, Grantee agrees to include a similar right of the Department to audit records and interview staff in any subcontract related to

performance of this Grant Agreement in accordance with Government Code section 8546.7. Grantee shall comply with the above and be aware of the penalties for violations of fraud and for obstruction of investigation as set forth in Public Contract Code section 10115.10.

6. Indemnification

Grantee agrees to indemnify, defend, and hold harmless the State of California, its officers, agents, and employees from any and all claims and losses accruing or resulting to any and all Grantees, partners, subcontractors, suppliers, laborers, and any other person, firm, or corporation furnishing or supplying work services, materials, or supplies in connection with the performance of this Grant Agreement, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by Grantee in the performance of this Grant Agreement.

7. Disputes

Grantee shall continue with the responsibilities under this Grant Agreement during any dispute.

8. Independent Grantee

Grantee, and the agents and employees of Grantee, in the performance of this Grant Agreement, shall act in an independent capacity and not as officers, employees, or agents of the Department.

9. Non-Discrimination Clause

During the performance of this Grant Agreement, Grantee and its subcontractors shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of race, color, ancestry, national origin, religion, creed, age (over 40), mental disability, physical disability, sex, gender (including pregnancy, childbirth, breastfeeding, or related medical conditions), sexual orientation, gender identity, gender expression, medical condition, genetic information, marital status, and military and veteran status. Grantee and subcontractors shall ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. Grantee and subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Gov. Code § 12990 (a-f) et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, Section 7285 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are incorporated into this Grant Agreement by reference and made a part hereof as if set forth in full. Grantee shall manage, monitor, and accept responsibility for the performance of its own staff and subcontractors, and will conduct Project activities and services consistent with professional standards for the industry and type of work being performed under this Grant Agreement.

Nothing contained in this Grant Agreement or otherwise, shall create any contractual relation between the Department and any subcontractors, and no subcontract shall relieve Grantee of its responsibilities and obligations hereunder. Grantee agrees to be as fully responsible to the Department for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by Grantee. Grantee's obligation to pay its subcontractors is an independent obligation from the Department's obligation to make payments to Grantee. As a result, the Department shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.

3. No Third-Party Beneficiaries

This Grant Agreement is not intended for the benefit of any person or entity other than the parties, and no one other than the parties themselves may enforce any of the rights or obligations created by this Grant Agreement.

- F. Grantee shall submit proof of new or updated policy based on insurance requirements within thirty (30) days of policy cancellation or substantial policy change. Failure to provide proof of insurance may result in termination of this Grant Agreement.

9. Stop Work

If it is determined, at the sole discretion of the Department, that Grantee is not meeting the terms and conditions of this Grant Agreement, immediately upon receiving a written notice through certified mail from the Department to stop work, Grantee shall cease all work under this Grant Agreement. The Department has the sole discretion to determine that Grantee meets the terms and conditions after a stop work order, and to send through certified mail a written notice to Grantee to resume work under this Grant Agreement.
